# STAGES OF THE SOCIAL SCIENCES CAREER WEEK

Applications for the Social Sciences Career Week committee are open now on [cedonulli.nl](https://cedonulli.nl)!

## APPLICATIONS

The selection process of the SSCW committee comprises of a CV review and an application interview. Both will take place at Campus Woudestein during a single session of around 30 minutes. During the interview, we will explore various aspects, including your motivation and relevant experience.

## PHASE 1: PREPARATION

The first part of your committee year will be a lot of bonding and brainstorming! You will be trained and decide on the main goals and plans of the SSCW. You will brainstorm about the activities, marketing, layout of the week, and aquisition plan. During this stage, professional photos will be taken of each committee member!

## PHASE 2: ACQUISITION

The committee will be looking for interesting companies and gathering contact information during this stage. The Commissioners of Commercial Relations will take the lead, but in the end you will have to acquire partners as a whole committee, as this is most work during the committee year.

## PHASE 3: EXECUTION

During the final stage, preparations for the SSCW will be finished up. This means taking care of all the practical matters and walking through the week to make sure everything will run smoothly. This will include more promotional work, arranging locations and facilities, coordinating the plans with partners, and writing the itinerary.

## THE ENCORE

As we are always striving to improve the SSCW, even the end of your year is important. You will gather feedback, thank the partners and pass on all the knowledge and experience you gained to the next committee. Finally, your efforts will be recognised by the ESSB faculty and rewarded in the form of an official certificate!
